Geetika Jain

Jawai

JAWAI, INDIA

In the hinterland of Rajasthan, , between Udaipur and Jodhpur, lies Jawai, where the spectacular outcrops are home to leopards that coexist with the Rabari herdsmen, who view them as the protectors of their temples. Based at the Sujan luxury camp, you can spot the felines at dawn and dusk. During winter months, you can spot about 170 species of migratory birds in the Jawai reservoir.
