Who: The Instagram-buffs

When social media is a way of life for you and your partner, your wedding and your honeymoon should both provide you with enough content to create a viral hashtag. Which basically means, your choice of location becomes most important to provide as the perfect backdrop for all those envy-inducing photos you plan to post on your timelines.

Where: SUJÁN Rajmahal Palace, Jaipur

A repository of a celebrated history, Rajmahal has been home to royalty and celebrities from the world over. Following a carefully orchestrated restoration by the prodigious designer Adil Ahmad, this palace continues to embody the heritage of its past by holding on to its prized possessions, while offering the very best contemporary amenities. Stylish and symmetrical in equal parts, every nook and corner of the luxurious hotel is perfect to take your Instagram game from novice to influencer, one click at a time. The Royal Apartments, Royal Suites and Palace Rooms are garnished with bespoke wallpapers that narrate the many stories of Jaipur, its rulers and their legacies, while vibrant hues and exquisite decor in The Palace are perfect to enjoy a private meal.
